

# Invasive Species Fun Sheet

Since the 1800s, at least 146 known nonnative aquatic organisms have invaded the Great Lakes. Below are a few. See if you can identify the organism with its picture by drawing a line from the name to the picture.

1. zebra mussel
2. purple loosestrife
3. sea lamprey
4. round goby
5. Eurasian watermilfoil
6. water flea
7. Eurasian ruffe
8. rainbow trout
9. narrow leaved cattail
10. red-eared slider

Muskegon River Watershed Assembly (MRWA)  
 @FSU, College of Allied Health Sciences  
 200 Ferris Drive, VFS 311  
 Big Rapids, MI 49307-2740

Check out our website at [www.mrwa.org](http://www.mrwa.org)

The mission of the MRWA is to preserve, protect and enhance the natural, historic and cultural resources of the Muskegon River Watershed through educational and scientific initiatives, while supporting positive economic development, agricultural and quality of life initiatives of organizations working in the river watershed.
